# Annual report of the DMCCB and elections

Y. Auberson[1,2]

[1]Swiss Chemical Society, [2]Novartis Pharma AG

The DMCCB focuses on the organization of scientific events, networking and communication.

This talk will briefly review the recent activities of the Division (12th Swiss Course on Medicinal Chemistry, Frontiers in Medicinal Chemistry), its interactions with the European Federation of Medicinal Chemistry, and its efforts to increase communication. It will also provide information about future events, and opportunities to participate in the activities of the DMCCB.

Members will be welcome to ask questions and make suggestions for future activities.
