

Collaboration Packages for the SCS Fall Meeting 2017

University of Bern, vonRoll Areal
Building 6+8, Fabrikstrasse 8, 3012 Bern, Switzerland
August 21, 2017, 14.30h – August 22, 2017, 18.30h

The Swiss Chemical Society Fall Meeting is the largest annual scientific event in Switzerland. It offers a unique opportunity for graduate students, post-doctoral researchers and scientists of all levels, from both, academia and industry, to share the results of their research projects. It also stimulates the exchange of ideas between all generations of chemists, often creating the seeds for new projects and collaborations.

The scientific program will offer invited and contributed lectures as well as poster presentations in the following sessions:

- Analytical Sciences
- Catalysis Science & Engineering
- Computational Chemistry
- Inorganic & Coordination Chemistry
- Medicinal Chemistry & Chemical Biology
- Organic Chemistry
- Physical Chemistry
- Polymers, Colloids & Interfaces
- Chemical Education

Finances

The exchange of scientific know how is crucial for the success of chemical sciences in Switzerland. Therefore we like to keep the participation free of charge for SCS members and at a low level for non-members. To ensure the necessary financial resources we are reliant on Sponsors and benefactors that contribute about 75% to the conference income.

The total budget is about 140'000 CHF

Audience

Participants of the conference are scientists from academia and industry and represent all levels from junior to senior scientists. The organizing committee expects about 1'000 participants whereof 600 will present a poster or will give a talk.
